Lumber Specialties, Dyersville, Becomes SCORE Leader

Madison, WI— As of June 23, 2008, Lumber Specialties, Ltd. in Dyersville, IA, is a SCORE-certified company. Lumber Specialties has qualified for SCORE Leader status and identified itself as a company that strives for excellence.

WTCA's SCORE program, which stands for Structural Component Operations Reaching for Excellence, was created in response to member requests for an industry certification process. WTCA member companies participating in many available programs wanted a way to show both their customers and other industry professionals how committed they are to continuous improvement within their companies. This is just one of the needs SCORE exists to fill. Certified companies participate in programs that help educate their employees, improve internal processes, and place a fence of protection around their companies.

Among other things, Leader certification means being In-Plant WTCA QC certified and having a minimum of 80 percent of technicians certified in Truss Technician Training. SCORE-certified locations also send out JOBSITE PACKAGES (which include WTCA documents) with each delivery to advocate industry-recommended practices for safe truss installation.

###

WTCA – Representing the Structural Building Components Industry is an international not-for-profit trade association of structural building component manufacturers. Formerly the Wood Truss Council of America, WTCA evolved its name in March 2006 to more accurately reflect the work of the association and its membership. Currently, WTCA has 790 component manufacturer members, 35 chapters, and nearly 300 supplier and related services members seeking to protect and expand the markets for the products they manufacture.
