Announcement

Lumber Specialties, LTD is proud to announce we have joined forces with PaceMaker Building Systems to provide Structural Insulated Panels (SIP's) to our customers. PaceMaker is a national leader in SIP's production and design which makes them a good fit with Lumber Specialties reputation in the structural building component industry.

PaceMaker Building Systems brand products are based on over 30 years of proven experience in the design and manufacturing of SIP's. This commitment is evident as PaceMaker brand products being utilized in thousands of commercial, residential, religious and educational projects. If your looking for ways to be more green, energy efficient or providing LEED/FSC certified material, SIP's might be for you!

Enclosed is a general brochure for your reference. It includes the code reports, case studies, load charts and photographs of how SIP's are utilized. More information can be viewed at www.buildwithsips.com.

We are excited to add SIP's to our product offering list which includes:

- Roof & Floor Trusses
- Wall Panels
- Boise Engineered Wood Products
- GluLams & Treated Deck GluLams
- Simpson Strong Tie Connectors
- Steel Beams and Columns
- Laminated Columns for Pole Barns

Please call us at 1-800-228-0290 if you need any additional information on SIP's or the above listed products.

Sincerely,

A handwritten signature in black ink that reads "Dennis Westhoff". The signature is written in a cursive, flowing style.

Dennis Westhoff
Vice President of Sales
